#### **Key features**

- wonderful bean shape with magic light
- colorful LED lights (7 colors), possible to switch off
- switch-off protection
- noiseless
- ultrasonic technology
- running time 3-6 hours for 1 filling
- white or pink color

#### **Description**

Reliable, high quality and discreet device that helps you to create a great mood, relax after a day full of hard work and stress, mask the unpleasant smells of cigarette smoke or pets. Ultrasonic technology will also help you to moisturize the surrounding air, which is especially important in the winter when it is necessary to prevent too dry air. Dry air drains the eyes, nose, skin and also increases the risk of influenza. CANDY supports children's imagination with 7 different alternating colors, each can be permanently set (can also be turned off). Ideal night light for a children's room. When emptying the water tank, the aroma diffuser will automatically shut down. It is a portable appliance suitable for household, yoga, office, sauna, bedroom or children's room. Perfect gift for the whole family and friends who love aromatherapy.
