

Table fan Airbi COOL

Key features

- power stepless adjustment
- built-in rechargeable battery
- adjustable tilt head
- high efficiency motor
- easily removable front covering
- rubbers on the bottom reduce vibration and increase friction

Description

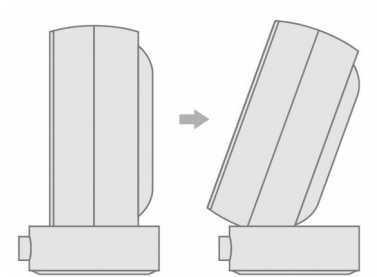

Airbi COOL is compact portable fan that is designed in unique modern look, lightweight and space-saving. It is perfect personal fan for office, home, bedroom, desktop, camping, or anywhere you need to make your day cool. **Airbi COOL is equipped with rechargeable battery (2000mAh)** that ensures 2-3 hours working time depend on choosed speed. Built-in battery can be charged with any device with USB port (TV, laptop, desktop, power bank, socket, power outlet) or by AC adapter that comes together with USB cable.

The key function of Airbi COOL is its power stepless adjustment that is suitable for your various cooling demand, just turn the power knob to change the speed. It will always keep you cool at the low speed, the high speed is strong enough to cool you down quickly after heavy sweat. Airbi COOL is equipped with adjustable tilt head that allows you to direct the air where you need it. Everyone will appreciate **easily removable front cover** for cleaning of the fan propeller. Designer rubbers on the bottom of the pedestal **help reduce vibration and increase friction**, which keep the fan firmly in place to ensure airflow is being directed to the desired location and doesn't slip over when working even at the high speed.

Technical parameters

Power supply	DC 5 V (output)
Power consumption:	3 W
Battery:	3,7 V, 2000 mAh
Noise level:	35-45 dB (A)
Colour:	black
