

# Air dehumidifier and purifier Airbi SPONGE

## Key features

- Dehumidifies and purifies at the same time
- 2 operating modes
- Safety fuse
- Ultra-quiet engine
- Operation timer
- Compact dimensions

## Description

If you have problems with too damp air in your room, which is perfect environment for creating mold, there is an excellent solution. Airbi SPONGE is an air dehumidifier for smaller rooms up to 20 m<sup>2</sup>. It condenses the humidity via cooling the damp air and stores the resulting water into a container. In this way Airbi SPONGE can store 750 ml of water per day.

SPONGE can effectively dispose water vapours from the air and also cleans it from dust, bacteria, viruses, pollen, smoke, mold and other substances using top-class HEPA filter. HEPA filter is in class H13, which means it filters 99,97 % of all undesirable particles.

Compact dimensions, high functionality and modern design – those are the main reasons that makes Airbi SPONGE so unique and easy to use.

## Technical parameters

Water tank capacity:	1 l
Max. dehumidifying performance:	Up to 750 ml/day
Air output:	130 m <sup>3</sup> /h
Power consumption:	45 W
Noise level:	> 45 dB
Frequency:	50/60 Hz
Voltage:	100-240 V
Designed for rooms:	max. 20 m <sup>2</sup>
Colour:	white
